Identification ongoing

**\*Leadership** - STUDENT COUNCIL, NJHS

The New Jersey Department of Education requires that each school district provide services to meet the needs of students who have been identified as gifted and talented. Each school district must establish a process to identify students as gifted and talented using multiple measures. These students require modification to their educational program if they are to achieve in accordance with their capabilities (*N.J.A.C. 6A:8-3.1*).

- Maintain a list of students identified as gifted and talented in each grade for each school in the school district
- Develop and document appropriate curricular and instructional modifications used for gifted and talented students indicating content, process, products, and learning environment.
- The modifications shall be identified in staff and student schedules, lesson and unit plans, and budgets for educational materials.
- Provide the time and resources to develop, review, and enhance instructional tools with modifications for helping gifted and talented students acquire and demonstrate mastery of the required knowledge and skills specified by the standards at the instructional level of the student.
- Support professional development for teachers, educational services staff, and school leaders in the area of gifted and talented instruction.
